AT THE CLINIC: INSTRUCTIONS FOR ATTENDING COVID-19 DRIVE THRU RESPIRATORY CLINIC

1. If you have a face mask, please wear one to the Drive Thru Clinic, otherwise one will be provided to you when you check into the Clinic. Please ensure the mask covers your nose and mouth.
2. Please wear a short-sleeved shirt and remove any jackets or sweatshirts before arrival, as we will need to assess your breathing.
3. Please bring with you, your Drivers Licence and valid Australian Medicare Card (if applicable).
4. On arrival at the check in point, wait for instructions from the nurse. The nurse will ask you to confirm your personal details and, in some cases, will ask for some basic medical information.
5. When directed to, please proceed to the waiting bay.
6. When directed to, please proceed to the testing area. Roll down your window and the doctor will provide you with further instructions.

Respiratory examination

7. We ask you to please face forward (i.e. facing your windscreen) throughout the consultation. This helps to protect our staff if you cough or sneeze.
8. Children under 7 will be examined outside of the car with their caregiver. Please inform our staff if the caregiver is also unwell.
9. **A respiratory examination involves checking your blood oxygenation, respiratory rate, temperature, your pulse and may involve taking your blood pressure and listening to your chest (if clinically indicated).**

COVID-19 test

10. After your respiratory examination we will ask you to pull your mask down, and a swab will be performed. Please keep facing forward throughout. Your throat will be swabbed first and then, with the same swab, deep into your nostril. This will be slightly uncomfortable.
11. We will provide you with additional instructions on the day during check in.
